I found invari-ney that where there was a weakness the invalle nerves were weak. Where there was a lack of vitality that the vital nerves lacked power. Where wenk organs were found I always found weak nerves. Not the nerves commonly thought of, but the vital organs'

nerves, the inside—the invisible nerves.

This was a revelation. Then my real success began Then I combined ingredients that would strengthen, that would vitalize these nerves. That prescription I called a restorative. It is known the world over now as Dr. Shoop's Re-storative. After that I did not faff to cure one case in each hundred. In the extremely difficult cases my fallures for five years were one in each forty treated. . I found cancer incurable. Cancer is for surgery, not medicine.
Then how to get this prescription to sick ones everywhere was my thought. I must announce it in the public press. Another bit of evidence to verify the story of the call at the Smith home is the story told by Miss Cad Friedley, the teacher of mathematics in the Bedford High School. She says that one morning Miss Schafer entered the schoolroom appearing fore. Miss Friedley understood the man's | C. Schafer at Bedford. His phtotgraph has

Several cople declared to-day that the letters were When asked if he had been at Bedford, he written by discontented patrons of the said "No," and that he had been about school, who believed Miss Schafer worked four weeks on the road from Indianapolis an influence over their children. Little stock is placed in this. Mrs. Dr. D. D. Nicholson, who read the letters, refused to MISS SCHAFER'S BODY discuss them to-day.

COURT OF INQUIRY. The court of inquiry began its session at an early hour to-day. Two tramps arrested during the night were released after explaining their whereabouts the night of the murder. At least twenty-five unimportant witnesses were examined by Mayor Smith's court and Justice Fletcher's court. All were bad characters or persons known to be in the neighborhood of the Cook house Thursday night.

Preparations were all made at one time to take into custody a man on suspicion. Later it was learned he was not in the city the night of the murder. The man was employed in a Bedford blacksmith shop. Even an arrest on suspicion would be a dangerous thing to-night, so intense is the feeling in the community. Another suspect, a man with a criminal record, tes- RED-HEADED TRAMP tified and was released. Both the men answered the earlier descriptions of the assailant furnished.

The new theory strengthens the story of the nervous man rushing into the office of Dr. McDonald and asking for a stimulant. It is not believed the murderer is the man seen by Cabman Lucas on the Monon station platform Friday night walking up and down nervously.

FUNERAL SERVICES. Milton Schafer and Ed Schafer, brother and uncle of Miss Schafer, arrived here early this morning from Elkhart, Ind., and left at 7 o'clock over the Monon for their home with the body of the murdered teacher. Miss Arda Knox and Miss Clara Friedley, of the High School, and Prof. W. E. Alexander accompanied the body to Elkhart to attend the funeral. Short services were held at the Smith house over the body early this morning by the Rev. Wilson Whitney, Elder J. W. Newland following with a prayletters "B. H. S.," furnished by the entire school. The Bedford schools, which were dismissed Friday morning on account of the murder of Miss Schafer, will resume next week, the grades on Monday and the High

school on Tuesday. The short services at the Smith home were most impressive. Those present were the funeral party and the members of Mrs. Smith's family. The members of the school board accompanied the body to the train. The most pathetic sight was the little group of girl and boy students, who crowded close to the coffin as it was raised to the baggage car. Many

Recent experiments conducted by most eminent scientists, prove that light is a great remedial agent; it is essentially Nature's agent. It may be either sunlight or electric light, but it has a de-cided effect in helping nature to banish disease and restore health. Other scientific men have proved that oxygen electrifies the heart and can prolong life.

The people on this earth are susceptible to some laws which govern plant life. A plant cannot be successfully grown in the dark. A man is seldom healthy and strong who lives in the dark or in sunless rooms. After all, Nature's ways are found to be the best. Nature's remedies are always best for eradicating disease, and by this we mean a medicine made of roots and herbs. They are assimilated in the stomach and taken up by the blood and are, therefore, the most potent means which can be employed for the regaining of lost health. Dr. R. V. Pierce, consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., in many years of extensive practice, found that he could pin his faith to an alterative extract of certain plants and roots for the cure of all blood diseases. This he called Dr. Pierce's Golden Medical Discovery. Containing no alcohol nor carcotics, entirely vegetable, this "Discovery" makes rich red blood and is a powerful tissue-builder, giving the tired business man or woman renewed strength and health. Rapidly growing school-girls and boys often show impoverished blood by the pimples or boils which appear on face or neck. To eradicate the poisons from the blood, and feed the heart, lungs and stomach on pure blood, nothing is so good as Dr. Pierce's Golden Medical

Don't allow the dealer to insult your intelligence by offering his own blood remedy to you instead of this well-known preparation of Dr. Pierce's. Ten chances to one he will substitute a cheap compound having a large percentage of alcohol in it. Dr. Pierce's Pellets are the best for the bowels. Use them with the "Discovery."
